

NOTABLE PLACES WHERE BLUE HILLS REGIONAL ALUMNI ARE EMPLOYED

Please note that this is a very partial list of places where Blue Hills alumni are employed. What is outstanding, however, is the diversity of these industries and the creative ways that our former students have put their excellent Blue Hills academic and technical training to use.

Many Blue Hills teachers, including Joanne Wayland, Dan Hamill, Mike Sheehan, Richard Spada and Brian Gearty, to name just a few, graduated from this school. Others are graduates of other technical high schools, such as Chris Deady, who is an alumnus of Quincy Vocational Technical School.

NASA (Captain Scott D. Tingle of Randolph, Class of 1983, is an astronaut who was aboard the International Space Station on a mission that launched in late 2017 and returned in June 2018.)
