

WELCOME TO BLUE HILLS, CLASS OF 2023!

We are delighted that you have chosen Blue Hills Regional Technical School as your high school. Over the next four years, we will challenge you, provide an environment that will help you grow as a person, scholar, and future professional, and give you the education you will need to successfully achieve your career goals.

Benefits of a Blue Hills Education:

Students receive two educations in one *Students get rigorous academic training, plus instruction in one of our 16 outstanding technical programs.*

Career exploration to gain college and career focus *All incoming freshmen participate in a half-year program exploring each of our career and technical programs and participate in assessments to assist with technical program placement and postgraduate plans.*

College articulation agreements *Each technical program has articulation agreements with local and national colleges that enable students can earn college credit while in high school.*

Real-world experience outside the classroom *Students who participate in our Co-Op program have the opportunity to gain valuable practical experience working in local businesses.*

Other ways that a technical school education helps students *You'll develop self-confidence and independence, sharpen your communications, analytical and organizational skills, and cultivate a strong work ethic.*

Get ready for college *Many of our alumni opt to continue their education after they graduate from Blue Hills. They excel at some of the most selective, competitive public and private colleges and universities.*

Programs of Study:

Students take academic classes in English Language Arts, Mathematics, Science, Social Studies, Physical Education/Health, and Electives. These classes prepare you for a challenging college curriculum or entrance into the workforce.
